

LOCUM GENERAL SURGEONS NEEDED

Weeneebayko General Hospital

Providing medical and surgical care for the 11,500 population of the West Coast of James Bay: primarily First Nations Cree people.

The hospital is located in the fresh air and beauty of Northern Ontario. Supported by 12 family doctors & regular complement of family med residents. Well-equipped operating room

Most of surgical work is done by days. Evenings and nights are usually quiet. For 2012-2013 we are looking for locum surgeons to fill two to four week stints.

In addition to usual general surgery (lapchole's, hernias, biopsies, diabetic foot ulcers, laparotomies etc.) one must have the capability to do elective and emergency Caesarian Sections, and D & C's for incomplete miscarriages. An Ontario license required.

We have good consultant back-up from Kingston. One locum anesthetist is always available.

Travel expenses, generous daily stipend and accommodations are provided. You will find it a restoring experience!
